WHITEPAPER

ABOUT SASUKE INU

Sasuke Inu (\$SINU) is a decentralized community token in the Ethereum Mainnet, with prospects of becoming the #1 Gaming NFT Ecosystem.

Building a strong community is our goal for developing this project, because it is a community token.

SASUKE INU'S VISION

Sasuke Inu aims to become one of the top coins on NFT and anime related purposes on the Ethereum Mainnet.

The popularity of blockchain games will ensure the massive nature of this marketplace. Besides, there'll be an easy-to-follow and use interface for conducting auctions, including those with charity purposes.

Selected artists and designers from the community of Sasuke Inu will be invited to release the first Sasuke Inu Branded NFTs and NFT Game Cards.

This is just a sneak peek of a much bigger NFT project surprise our team is working on!

COMMUNITY DEVELOPMENT CHARITY

Sasuke Inu strives to contribute to helping those in need, be it people, nature, or animals. The Charity campaigns are to be conducted through a partnership with leading brands and charitable organizations as well as via auctions of unique NFTs created especially for that reason.

As far as Sasuke Inu is a community-driven project, Sasuke Inu's community are to decide which directions will be prioritized over others. Thus, the Team will conduct polls in the official telegram channel to choose which issues the Sasuke Inu Platform will contribute to.

CONCLUSION

It doesn't stop here. By participating in the project, you don't just buy in for quick gains, \$SINU stands for honor and virtues, things that the high paced crypto community is forgetting in the search for quick profits. SASUKE INU, with all its humor, is a reminder of some of the moral virtues we must not forget in our search for a brighter and more decentralized future.
